

DMVRegInfo

Registered Owner Retrieval

DMVRegInfo Features

- Retrieves vehicle registered-owner information from almost every state DMV
- Fast and efficient method to submit license plates for registered owner retrieval
- Cost-effective, easy and quick
- Flexible subscriptions allow for online batch submission of requests and full integration with processing system
- Registered owner data retrieval and vehicle violation collections from the industry leader

Locating the registered owner of a vehicle is essential to collecting delinquent violations. Without the proper name and address, ticket revenue is lost forever. With DMVRegInfo, obtaining registered owner information is as easy as point and click. DMVRegInfo provides a fast and efficient method to submit license plates for registration retrieval and download to your computer. DMVRegInfo is the ultimate registration retrieval service. Now you can retrieve registration information from all 50 states. Offered to municipalities, state universities, tollways and their qualified agents, DMVRegInfo permits you to submit state/plate information for fast processing.

DMVRegInfo.com is a secure Internet-based DMV registration retrieval service offered by Duncan Solutions. The Federal Drivers Privacy Protection Act and the rules and regulations of individual state motor vehicle departments govern access to DMVRegInfo.com. Generally, government agencies, their qualified agents and other parking enforcement related entities can qualify to use DMVRegInfo.com.

Frequently Asked Questions

Who can use DMVRegInfo?

- DMVRegInfo is offered in strict compliance with the Federal Drivers Privacy Protection Act and the laws of individual states governing access to motor vehicle records. DMVRegInfo is available to local, state and federal government agencies and their qualified agents for carrying out the functions of government. State universities and other parking enforcement entities may also qualify to use DMVRegInfo.

How can my agency qualify?

- Please go to DMVRegInfo.com, click on "Register" and complete the questionnaire and forward to Duncan. Within 24 hours a Customer Service Representative will contact you to review the questionnaire. If you qualify, you will be sent a Subscription Agreement to sign.

How will we be charged?

- DMVRegInfo is a transaction-based service with a low fee per returned match based on using the Standard Request Format and submitting requests through the DMVRegInfo system.
- If you are unable to use the Standard Request Format, we will accept your format for a one-time set-up fee that will be quoted upon review of format.

What is the Standard Request Format and why use it?

- The Standard Request Format will be provided once you become a subscriber. The format enables uniform transfer of data from your system to DMVRegInfo. The format includes data elements such as ticket issue date, plate type and vehicle description elements which are necessary in order to return the highest percentage of "hits" or successful look-ups.

How often can we submit data?

- Data can be submitted daily, weekly or as needed.

How quickly will data be returned?

- Data will be returned as it is received by Duncan from the source. For most states, information is returned to you within 48 to 72 hours.

How can we collect from violators who ignore our letters?

- Duncan Solutions provides a collection service that will maximize your violation revenue with no additional clerical work required of your staff. Contact Duncan at 888.99DUNCAN to discuss your individual concerns.
